

## Project description

**Cards against Humanity** – Cards against humanity is a party card game where players complete prompts using humorous, offensive or absurd answers. Players will be shown a black card as a round starts, a single player is then randomly chosen “Card Czar” while other players must submit their responses as white cards. The Card Czar then chooses their favorite answer and the player with that card wins a point.

## User Stories

As a user I’m able to create a game so that I can become a game’s host

### CARDS AGAINST HUMANITY

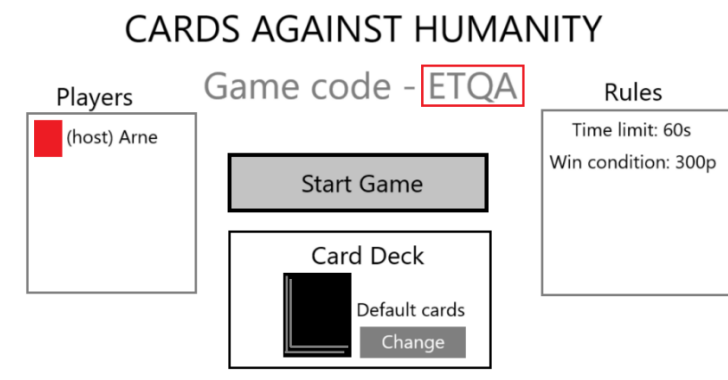

Game code... Join

Create Game

- A button on the home page of the website that takes you to a new game room

As a host I’m able to share a game code so that I can invite users to my game

CARDS AGAINST HUMANITY

Players (host) Arne

Game code - ETQA

Start Game

Card Deck

Default cards Change

Rules

Time limit: 60s

Win condition: 300p

- The game code will be a simple 4 letter combination
- Users can use this code in either an URL or on the home page

As a host I'm able to edit a game's rules so that I can adjust the duration and difficulty to my liking

<div><div></div>(host) Arne</div>	<div>Arne</div> <div>Start Game</div> <div>Card Deck</div> <div>Default cards</div> <div>Change</div>	Time limit: 60s Win condition: 300p

---

As a host I'm able to start a game so that I can become a player along with all the participating users

CARDS AGAINST HUMANITY

Players	Game code - ETQA	Rules
<div><div></div>(host) Arne</div> <div><div></div>Christophe</div> <div><div></div>Another friend</div> <div><div></div>Good friend</div>	<div>Arne</div> <div>Start Game</div> <div>Card Deck</div> <div>Default cards</div> <div>Change</div>	Time limit: 60s Win condition: 300p

---

- A game can only be started when 3 or more players are participating
- When all criteria is met, this button will take all players to the next page and start the first round

As a player I'm able to enter a round so that I can read a randomly chosen black card

CARDS AGAINST HUMANITY

Players	Round 1	Response
<div><div></div>(host) Arne</div> <div><div></div>Christophe</div> <div><div></div>Another friend</div> <div><div></div>Good friend</div>	<div>What is Batman's guilty pleasure?</div>	

---

As a player I'm able to be randomly selected so that I can become the card czar during this round

## CARDS AGAINST HUMANITY

As a player who isn't card czar I'm able to write a white card responding to the black card so that I can hope to win this round with a funny response

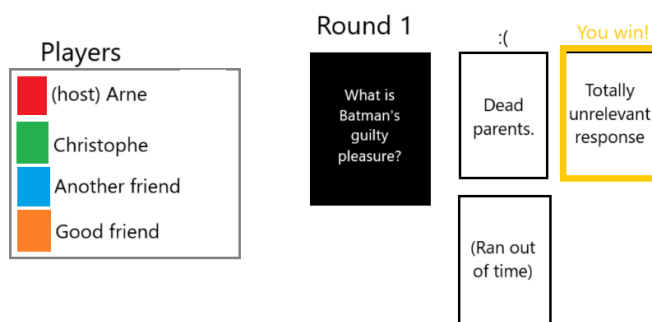

## CARDS AGAINST HUMANITY

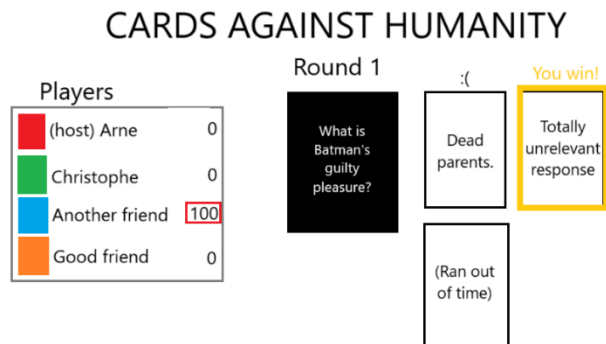

- There will be a character limit present to prevent spamming
- If no response is given within the provided time limit, your white card won't be able to be chosen by the card czar

As a card czar I'm able to choose a white card to my liking so that I can decide the winning player of this round

## CARDS AGAINST HUMANITY

As a player I'm able to win a round so that I can score points

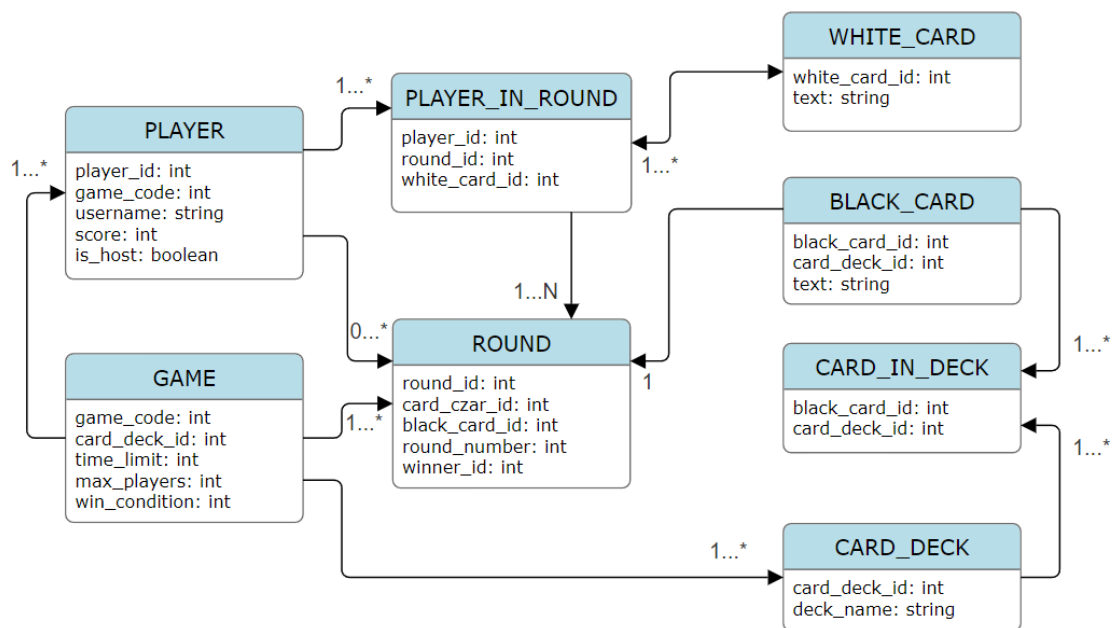

As a player I'm able to reach a certain score so that I can win the game

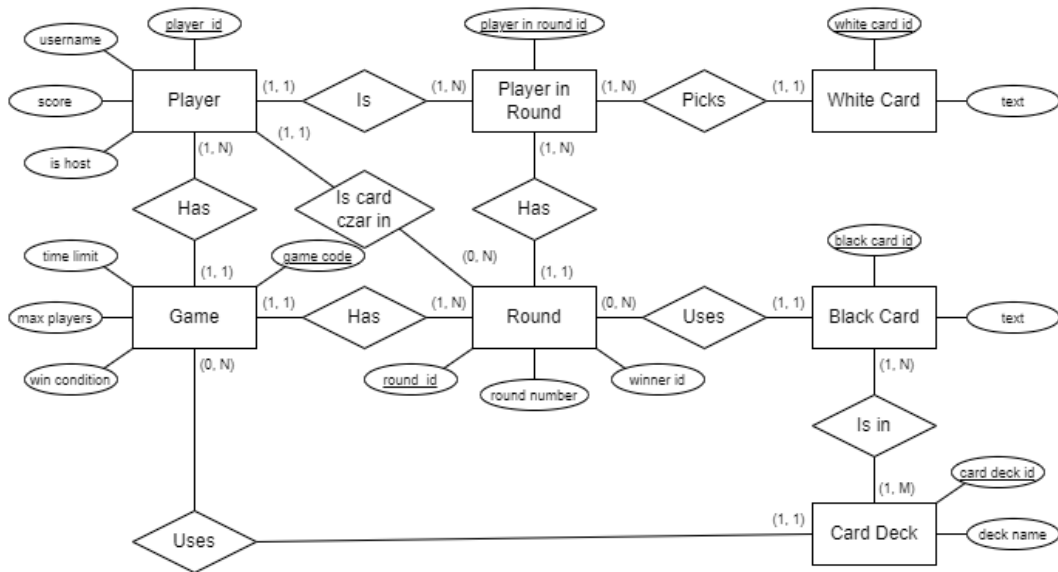

- Players will be prompted to leave the game as it ends
- All usernames, scores and other data will be forgotten after a game ends
